Conference 13th Sept 2025, M Hotel Singapore City Centre

ABOUT

The OWASP Foundation (Open Worldwide Application Security Project) is a nonprofit organization dedicated to improving software security. It provides free, open-source tools, resources, and security guidelines to help developers, security professionals, and organizations build and maintain secure applications. OWASP is best known for projects like the OWASP Top 10, a widely recognized list of the most critical web security risks. The foundation also organizes global and regional AppSec conferences, training, and community-driven initiatives to promote cybersecurity awareness and best practices.

OWASP AppSec Days Singapore 2024 Highlights

Training Sessions (October 1) The event commenced with three comprehensive one-day training courses, offering participants in-depth knowledge and hands-on experience in various aspects of application security.

Conference and Exhibition (October 2) The second day featured a series of talks by leading experts, including keynote speakers Vivek Ramachandran and Emil Tan. The conference also hosted an exhibition where sponsors and vendors showcased the latest in application security technologies and solutions.

Capture The Flag (CTF) Competition A highlight of the event was the CTF competition, challenging participants to apply their skills in real-world security scenarios, fostering both learning and collaboration among attendees.

Participant Demographics The conference attracted close to 200 participants from over 8 countries, reflecting its international appeal and the global importance of application security.
